

Snake Chase

It is a simple fun game where the player controls a snake that moves around the screen, grows longer when it eats food, and loses when it collides with the screen boundary.

Features of the Snake Game:

- **Snake Movement:** The snake moves continuously in a specified direction and responds to arrow key inputs.
- **Food Generation:** Randomly place food on the screen that the snake can eat.
- **Growth Mechanic:** The snake grows in size when it eats food.
- **Collision Detection:** Game ends if the snake hits the screen boundaries.
- **Score Tracking:** Keep track of the player's score .
